

FinDev Canada's Climate and Nature Action Approach

Climate and nature action is one of FinDev Canada's development impact priorities. Our investments in climate and nature action contribute to building low-carbon and climate-resilient and nature-positive economies, including through sustainable infrastructure.

Our climate and nature action portfolio

As of March 31, 2025 | All figures stated in USD*

35%
climate finance
investments

3,564 GWh
of clean energy
produced**

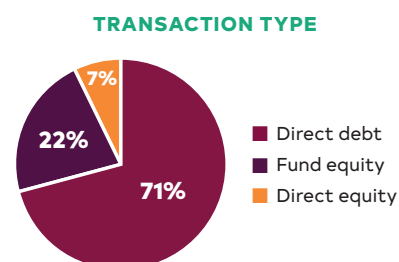

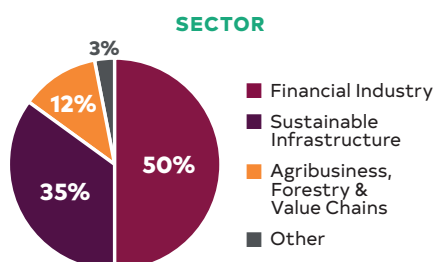

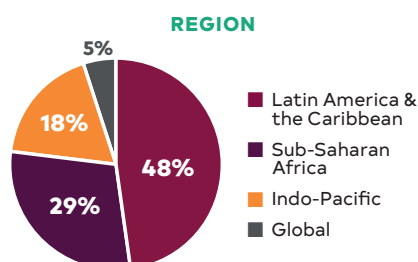

75%
of climate finance deals are
also 2X-aligned***

*Figures include exited transactions.

** The energy produced figure is as of FY2024 and pending auditor review

***2X-aligned deals meet the 2X Criteria, an international standard for gender-lens investing, which promote women as entrepreneurs, leaders, employees, suppliers, clients and users. Learn more at www.2xchallenge.org/criteria.

Climate finance breakdown

Client story

CLIMATE INVESTOR ONE

Climate Investor One (CIO) is an investment facility focusing exclusively on renewable energy projects in emerging markets across Africa, Asia and Latin America. CIO offers financing for the entire lifecycle of a project to developers, from design to construction and into operations through a post-construction refinancing.

FINDEV CANADA'S FINANCIAL COMMITMENT: \$20M
